6 November 1978

OLC #78-2242/1

MEMORANDUM FOR: John E. Koehler
D/DCI/RM

STAT

FROM [redacted]

SUBJECT : SAFE Upgrade Report for SSCI

1. Action Requested: You sign the attached letter to Bill Miller forwarding the GDIP program manager's response to the committee's request for a brief report on the use of the SAFE upgrade by GDIP agencies.

2. Background: The attached report was received on 1 November under cover of a transmittal memorandum [redacted]

25X1 [redacted] It's apparent from reading it that nothing has been done specifically to respond to the committee's direction. However, in view of the volatility of the SAFE issue and since the committee's direction was addressed to the GDIP program manager, Dave recommends we not get involved. Dave has talked to the SAFE Project Officer who has no problem with it.

3. Recommendation: That you pass the report to Bill Miller without comment, and we leave it up to the committee to raise objections if it chooses.
